Wrap & Turn (w&t)

Wrap & turns (abbreviated as w&t) are used to work short rows. When working a "short row", you wrap the stitch to avoid a gap at the point where you want to turn the work. When you pass the wrap again, you will need to work it with the stitch it wraps in order to avoid seeing the wrap in the finished work.

NEEDLES

One pair 4.5 mm [UK 7 – US 7] knitting needles.
One 4.5 mm [UK 7 – US 7] circular knitting needle.

TENSION

17 sts and 20 rows to 10 cm, 4 in worked over St-st on 4.5mm needles, or the size required to give the correct tension.

Check your tension – if less stitches use thinner needles, if more use thicker needles.

On a knit row:

1. Work to last st before wrap, sl next st purl-wise to RH needle, pass yarn from back to front, slip st back to LH needle.
2. Turn to work purl row, passing yarn to front of work. When you work the next st, make sure you pull yarn snugly enough so there is no gap. Take care not to pull so tightly that you distort the st.

On a purl row:

1. Work to last st before wrap, sl next st purl-wise to RH needle, pass yarn from front to back, slip st back to LH needle.
2. Turn to work knit row, passing yarn to back of work. When you work the next st, make sure you pull yarn snugly enough so there is no gap. Take care not to pull so tightly that you distort the st.

When you come to a wrapped stitch in subsequent rows:

For knit sts: Lift the wrap onto the RH needle from the front and work it together with the st it wraps.

For purl sts: Lift the wrap onto the RH needle from the *right side* of the work and place it on the LH needle. Work it together with the st it wraps.
